QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended June 30, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

GROWTH CAPITAL ACQUISITION CORP.

(Exact name of registrant as specified in its charter)

Delaware	001-39959	27-2447291
(State or other jurisdiction of incorporation or organization)	(Commission File Number)	(I.R.S. Employer Identification Number)
405 Lexington Ave, New York, NY		10174
(Address of principal executive offices)		(Zip Code)

Registrant's telephone number, including area code: 212-895-3500

Not Applicable

(Former name or former address, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Units, each consisting of one share of Class A common stock and one-third of one redeemable warrant	GCACU	The Nasdaq Capital Market
Class A common stock, par value \$0.0001 per share	GCAC	The Nasdaq Capital Market
Redeemable warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$11.50	GCACW	The Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 16, 2021, 17,250,000 shares of Class A common stock, par value \$0.0001, and 4,312,500 shares of Class B common stock, par value \$0.0001, of the registrant were issued and outstanding.

Growth Capital Acquisition Corp.
Notes to the Condensed Financial Statements

NOTE 1 — DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Organization and General

Growth Capital Acquisition Corp. (the “Company”), a blank check company, was incorporated under the laws of the State of Delaware on January 4, 2010 under the name PinstripesNYS, Inc., and changed its name to its current name on February 14, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”).

The registration statements for the Company’s initial public offering (described below) were declared effective on January 29, 2021. On February 2, 2021, the Company consummated the initial public offering of 17,250,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), which includes the full exercise by the underwriter of its over-allotment option in the amount of 2,250,000 Units, at \$10.00 per Unit, generating gross proceeds of \$172,500,000, which is described in Note 4.

Simultaneously with the closing of the initial public offering, the Company consummated the sale of 5,175,000 warrants (each, a “Private Placement Warrant” and, collectively, the “Private Placement Warrants”) in a private placement to the Company’s sponsor, Growth Capital Sponsor LLC (the “Sponsor”), Nautilus Carriers LLC (“Nautilus”), an affiliate of our Co-Chief Executive Officers, and HB Strategies LLC (“HB Strategies”), an affiliate of Hudson Bay Capital Management LP (“Hudson Bay”) generating gross proceeds of \$5,175,000, which is described in Note 5.

Transaction costs amounted to \$4,296,946, consisting of \$3,450,000 of underwriting fees, and \$824,946 of other offering costs.

Although the Company is not limited to a particular industry or sector for the purpose of consummating a Business Combination, it intends to focus on industries that complement the Company’s management team’s background, and to capitalize on the ability of the Company’s management team to identify and acquire a business or businesses consistent with the experience of the Company’s management team and affiliates of Maxim Group LLC (“Maxim”), the representative of the underwriters in the Initial Public Offering.

As of June 30, 2021, the Company had not commenced any operations. All activity from January 4, 2010 (inception) through February 2, 2021 relates to the Company’s formation, its prior unconsummated initial public offering, and its initial public offering (the “Initial Public Offering” or “IPO”) described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Initial Public Offering and will recognize changes in the fair value of warrant liability as other income (expense). The Company has selected March 31 as its fiscal year end.

The Trust Account

Following the closing of the IPO on February 2, 2021 and the exercise of Over-allotment Units simultaneously with the closing of the Initial Public Offering, an amount of \$172,500,000 (\$10.00 per Unit) from the net proceeds of the exercise of the Units in the IPO, the sale of the Private Placement Warrants, and the exercise of Over-allotment Units was placed in a trust account (“Trust Account”). The proceeds held in the Trust Account are substantially invested only in money market funds registered under the Investment Company Act of 1940, as amended and compliant with Rule 2a-7.

Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay its taxes, the proceeds from the IPO may not be released from the Trust Account until the earliest of: (i) the completion of the initial Business Combination; (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend the Company’s amended and restated certificate of incorporation to modify the substance or timing of the Company’s obligation to redeem 100% of its public shares if it does not complete the initial Business Combination by August 2, 2022; or (iii) the redemption of all of the Company’s public shares if the Company is unable to complete the initial Business Combination by August 2, 2022 (at which such time up to \$100,000 of interest shall be available to the Company to pay liquidation or dissolution expenses), subject to

applicable law. The proceeds deposited in the Trust Account could become subject to the claims of the Company's creditors, if any, which could have priority over the claims of the Company's public stockholders.

Initial Business Combination

The Company's management has broad discretion with respect to the specific application of the net proceeds of the IPO, although substantially all of the net proceeds of the IPO and the Private Placement are intended to be generally applied toward consummating an initial Business Combination. The initial Business Combination must occur with one or more businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding the amount of the Business Combination Marketing Fee). There is no assurance that the Company will be able to successfully effect an initial Business Combination.

The Company, after signing a definitive agreement for an initial Business Combination, will provide its public stockholders' with the opportunity to redeem all or a portion of their shares upon the completion of the initial Business Combination, either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. However, in no event will the Company redeem its public shares in an amount that would cause its net tangible assets, after payment of deferred underwriting commissions, to be less than \$5,000,001. In such case, the Company would not proceed with the redemption of its public shares and the related initial Business Combination, and instead may search for an alternate initial Business Combination.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with an initial Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest, but less taxes payable. As a result, such shares of Class A common stock will be recorded at their redemption amount and classified as temporary equity, in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, "Distinguishing Liabilities from Equity."

The Company will have until August 2, 2022 to complete a Business Combination. If the Company is unable to complete the initial Business Combination by August 2, 2022, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest, but less taxes payable (less up to \$100,000 of interest to pay liquidation or dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

Each of the Company's Sponsor and Nautilus has agreed that it will be severally liable to the Company, on a pro rata basis based on the number of founder shares owned by them, if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company have entered into a written letter of intent, confidentiality or similar agreement or Business Combination agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per share due to reductions in the value of the trust assets, less interest released to pay taxes, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the Trust Account (whether or not such waiver is enforceable) nor will it apply to any claims under the Company's indemnity of the underwriters of IPO against certain liabilities, including liabilities under the Securities Act. However, the Company has not asked its Sponsor or Nautilus to reserve for such indemnification obligations, nor has it independently verified whether the Sponsor or Nautilus have sufficient funds to satisfy such indemnity obligations and believe that the only assets of the Sponsor and Nautilus are securities of the Company. Therefore, the Company cannot assure you that the Sponsor or Nautilus would be able to satisfy those obligations. None of the Company's officers or directors will indemnify the Company for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

The Sponsor, the Company's officers and directors and certain initial stockholders have entered into a letter agreement with the Company, pursuant to which they agreed to waive their rights to liquidating distributions from the Trust Account with respect to any Founder Shares (as defined below) held by them if the Company fails to complete the initial Business Combination by August 2, 2022. However, if the Sponsor or any of the Company's directors or officers acquires shares of Class A common stock in or after the

IPO, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the initial Business Combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the Company after an initial Business Combination, the Company's remaining stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock.

The Company will provide its public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of the initial Business Combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the Trust Account is initially anticipated to be \$10.00 per public share. There will be no redemption rights upon the completion of the initial Business Combination with respect to the Company's warrants. The Company's Sponsor, officers, directors, and Nautilus have entered into a letter agreement with the Company, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares held by them and any public shares they may acquire during or after the IPO in connection with the completion of the initial Business Combination or otherwise. HB Strategies has agreed to the foregoing terms except that it will not waive redemption rights with respect to its public shares.

The Company may require its public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to the Company's transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the initial Business Combination in the event the Company distributes proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that the Company will furnish to holders of its public shares in connection with the initial Business Combination will indicate whether the Company is requiring public stockholders to satisfy such delivery requirements.

Liquidity and Capital Resources

At June 30, 2021, the Company had cash outside the Trust Account of \$718,500 and a working capital of \$725,482. All remaining cash held in the Trust Account is generally unavailable for the Company's use prior to an initial business combination, and is restricted for use either in a Business Combination or to redeem common stock.

On February 2, 2021, the Company consummated its IPO (see Note 3) and Private Placement (See Note 4) and the underwriters fully exercised their Over-Allotment Option. Of the net proceeds from the IPO, exercise of the over-allotment option, and associated Private Placements, \$172,500,000 of cash was placed in the Trust Account.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a Business Combination or one year from the date the financial statements are issued. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these condensed financial statements. The condensed financial statements does not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 — REVISION OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

On July 19, 2021 the Company reported an incorrect amount to the Securities and Exchange Commission of its Form 10-K. The Company reported negative additional-paid in capital on its March 31, 2021 balance sheet and statement of changes in shareholders' equity. Had the Company properly reported the information, the negative additional-paid in capital would have been reclassified to retained earnings. Total shareholders' equity did not change.

	<u>As Reported</u>	<u>Adjustment</u>	<u>As Adjusted</u>
Audited Balance Sheet as of March 31, 2021

Retained earnings	\$ 8,114,967	\$ (3,115,509)	\$ 4,999,458
Total shareholders' equity	\$ 5,000,002	\$ —	\$ 5,000,002

NOTE 3 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Basis of Presentation***

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's Annual report on Form 10-K, as filed with the SEC on July 19, 2021. The interim results for the three months ended June 30, 2021 are not necessarily indicative of the results to be expected for the year ending March 31, 2021 or for any future periods.

Emerging Growth Company

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company's condensed financial statements with another public company, which is neither an emerging growth company nor an emerging growth company, and which has opted out of using the extended transition period, difficult or impossible because of the potential differences in accounting standards used.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2021 and 2020.

Investment Held in Trust Account

At June 30, 2021, the assets held in the Trust Account were held in cash and Money Market mutual funds.

As of June 30, 2021, investment in the Company's Trust Account consisted of \$919 in cash and \$172,510,820 in Money Market mutual funds. Money Market funds are characterized as Level 1 investments within the fair value hierarchy under ASC 820 (as defined below).

Common Stock Subject to Possible Redemption

The Company accounts for its Class A common stock subject to possible redemption in accordance with the guidance in ASC Topic 480 "Distinguishing Liabilities from Equity". Class A common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's common stock features certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events. Accordingly, common stock subject to possible redemption is presented as temporary equity, outside of the stockholders' equity section of the Company's balance sheet.

Use of Estimates

The preparation of condensed financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurement," approximates the carrying amounts represented in the balance sheet, primarily due to their short term nature.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

Warrant Liability

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, "Derivatives and Hedging". For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the grant date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

The Company accounts for the warrants issued in connection with the IPO in accordance with the guidance contained in ASC 815-40. Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability. Accordingly, the Company classified each warrant as a liability at its fair value. This liability is subject to re-measurement at each reporting period. With each such re-measurement, the warrant liability will be adjusted to fair value, with the change in fair value recognized in the Company's statement of operations. As of June 30, 2021 and 2020, there were 13,800,000 and 0 warrants outstanding, respectively.

Net Income Per Share

Net income per share is computed by dividing net income by the weighted average number of common stock outstanding during the period. The Company applies the two-class method in calculating earnings per share. Common Stock subject to possible redemption at June 30, 2021, which are not currently redeemable and are not redeemable at fair value, have been excluded from the calculation of basic net income per common share since such shares, if redeemed, only participate in their pro rata share of the Trust Account earnings. The calculation of diluted income per common stock does not consider the effect of the warrants issued in connection with the (i) IPO, (ii) exercise of over-allotment and (iii) Private Placement as such warrants were anti-dilutive. The warrants are exercisable to purchase 13,800,000 shares of Class A common stock in the aggregate.

The Company's statement of operations includes a presentation of income per Class A common stock subject to possible redemption in a manner similar to the two-class method of income per common stock. Net income per common stock, basic and diluted, for redeemable Class A common stock is calculated by dividing the interest income earned on the Trust Account, by the weighted average number of redeemable Class A common stock outstanding since original issuance. Net income per common stock, basic and diluted, for non-redeemable Class B common stock is calculated by dividing the net income, adjusted for income attributable to redeemable Class B common stock, by the weighted average number of non-redeemable Class B common stock outstanding for the periods. Non-

redeemable Class B common stock include the Founder Shares as these common stock does not have any redemption features and do not participate in the income earned on the Trust Account.

	<u>For the Three Months Ended June 30,</u>	
	2021	2020
Redeemable Common Stock		
Numerator: Earnings allocable to Redeemable Common Stock		
Interest earned on marketable securities held in trust	\$ 6,225	\$ —
Less: interest available to be withdrawn for payment of taxes	(6,225)	—

Redeemable Common Stock outstanding, Basic and Diluted	16,115,493	
Basic and Diluted net income per Redeemable Common Share	\$ —	\$ —
Non-Redeemable Common Stock		
Numerator: Net Loss less Redeemable Net Earnings		
Net Loss	\$ (1,525,461)	\$ —
Redeemable Net Income	\$ (6,225)	\$ —
Non-Redeemable Net Loss	\$ (1,531,686)	\$ —
Denominator: Weighted Average Non-Redeemable Common Stock		
Non-Redeemable Common Stock outstanding, Basic and Diluted	5,447,007	3,750,000
Basic and Diluted net income per Non-Redeemable Common Share	\$ (0.28)	\$ —

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, “Income Taxes” (“ASC 740”). Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of June 30, 2021. The Company’s management determined that the United States is the Company’s only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties for the period from June 30, 2021 and June 30, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

Recent Accounting Standards

Management does not believe that any recently issued, but not effective, accounting standards, if currently adopted, would have a material effect on the Company’s condensed financial statements.

NOTE 4 — PUBLIC OFFERING

Pursuant to the IPO, the Company sold 17,250,000 at an offering price of \$10.00 per Unit, which included 2,250,000 units sold upon the full exercise by the underwriter of its over-allotment option, at \$10.00 per Unit, generating gross proceeds of \$172,500,000.

Each Unit consists of one share of the Company’s Class A common stock, \$0.0001 par value, and one-half of one redeemable warrant, with each whole warrant exercisable for one share of Class A common stock (each, a “Warrant” and, collectively, the “Warrants” and,

with respect to the warrants sold in the Private Placement, the “Private Placement Warrants”). Each whole Warrant entitles the holder thereof to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment.

Warrants

Warrants may only be exercised for a whole number of shares. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade. The Warrants will become exercisable on the later of (a) 30 days after the completion of the initial Business Combination or (b) 12 months from the closing of the IPO; provided in each case that the Company has an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the Warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company will agree that as soon as practicable, but in no event later than 15 business days, after the closing of the initial Business Combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the Warrants, to cause such registration statement to become effective within 60 business days after the closing of the initial Business Combination and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If the shares issuable upon exercise of the warrants are not registered under the Securities Act by the 60th business day after the closing of the initial Business Combination, the Company will be required to permit holders to exercise their warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Company’s Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company elects, the Company will not be required to file or maintain in effect a registration statement, but the Company will use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The warrants contain a tender or exchange offer that the Company’s management concluded do not qualify as an acceptable form of net cash settlement under the exception of ASC 815-40-25-8, because an event that is not within the entity’s control (tender offer) may result in a circumstance in which warrant holders would be entitled to cash while holders of the shares underlying the contract also would not receive cash (because a portion of their shares may not be subject to the tender offer). In a tender offer for less than all of the Company’s outstanding shares, the common stockholders may be restricted in the number of tendered shares that will be accepted for purchase. As such, the Company’s Public Warrants are reported as a derivative liability.

The Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company may call the Warrants for redemption (except with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days’ prior written notice of redemption (the “30-day redemption period”); and
- if, and only if, the last sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.
- If the Company calls the Warrants for redemption, management will have the option to require all holders that wish to exercise the Warrants to do so on a “cashless basis,” as described in the warrant agreement.

NOTE 5 — PRIVATE PLACEMENT

Simultaneously with the closing of the IPO, the Company consummated the sale of 5,175,000 Private Placement Warrant in a private placement to the Sponsor, Nautilus Carriers LLC and HB Strategies LLC generating gross proceeds of \$5,175,000.

A portion of the purchase price of the Private Placement Warrants were added to the proceeds from the IPO held in the Trust Account. If the Initial Business Combination is not completed by August 2, 2022, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless.

The Private Placement Warrants are identical to the Warrants underlying the Units sold in the IPO, except that the Private Placement Warrants and the shares of Class A common stock issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of the initial Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be non-redeemable so long as they are held by the initial purchasers or such purchasers' permitted transferees. If the Private Placement Warrants are held by someone other than the initial shareholders or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Warrants.

NOTE 6 — RELATED PARTY TRANSACTIONS

Founder Shares

On April 30, 2010, the Company sold 5,000,000 shares of the Company's common stock, par value \$0.0001 per share, to the Sponsor, at a purchase price of \$25,000. On July 1, 2012, the Company issued 376,344 shares of the Company's common stock to a third party as consideration for services performed. On February 24, 2020, the third party forfeited 257,649 shares of the Company's common stock.

On February 24, 2020, the Company effectuated a recapitalization. Each outstanding share of the Company's Common Stock became 0.8425 shares of Class B common stock, resulting in an aggregate of 4,312,500 Founder Shares outstanding and held by the Sponsor (up to 562,500 of which were subject to forfeiture if the underwriter's over-allotment option was not exercised in full). All share and per-share amounts for periods and dates prior to December 2019 have been retroactively restated to reflect this split. Additionally, 75,000 shares of Class B Common Stock were transferred from the Sponsor to the Company's three independent directors prior to the closing of the IPO.

On August 14, 2020, the Sponsor forfeited an aggregate of 2,833,333 shares of Class B common stock to the Company for no consideration, and each of Nautilus and HB Strategies purchased from the Company 1,379,167 shares of Class B common stock for a purchase price of \$2,043 (or an aggregate purchase price of \$4,086).

On January 7, 2021, three initial stockholders of the Company forfeited an aggregate of 718,750 shares of Class B common stock at no cost, which the Company cancelled, resulting in an aggregate of 3,593,750 shares of Class B common stock outstanding and held by the Company's initial stockholders.

On January 29, 2021, the Company effectuated a 1.2-for-1 forward stock split, resulting in an aggregate of 4,312,500 shares held by its initial stockholders (all share and per share amounts have been restated).

Holders of Founder Shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment, at any time.

The Company's initial stockholders, officers and directors have agreed, not to transfer, assign or sell any Founder Shares held by them until the earlier to occur of: (i) one year after the completion of the initial Business Combination, (ii) the last sale price of Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 60 days after the initial Business Combination, or (iii) the date following the completion of the initial Business Combination on which the Company completes a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of the public stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Administrative Fees

Commencing on January 29, 2021, the Company agreed to pay an affiliate of the Sponsor a total of \$5,750 per month for office space, utilities and secretarial and administrative support. Upon completion of the initial Business Combination or the Company's liquidation, the Company will cease paying these monthly fees. The Company incurred \$17,250 in expenses in connection with such services for the three months ended June 30, 2021, as reflected in the accompanying statement of operations.

Notes Payable — Related Party

The Company issued promissory notes to certain initial stockholders of the Company, which allowed the Company to borrow up to \$300,000 without interest to be used for a portion of the expenses of the IPO. All amounts due under the promissory notes were payable on the earlier of: (i) June 30, 2021 or (ii) the date on which the Company consummated its IPO. As of June 30, 2021 and 2020, there were no amounts outstanding under the promissory notes, respectively. The promissory notes were repaid from the proceeds of the IPO.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor and certain other initial stockholders of the Company may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants.

Note 7 — RECURRING FAIR VALUE MEASUREMENTS

At June 30, 2021, the Company's warrant liability was valued at \$8,607,750. Under the guidance in ASC 815-40 the warrants do not meet the criteria for equity treatment. As such, the warrants must be recorded on the balance sheet at fair value. This valuation is subject to re-measurement at each balance sheet date. With each re-measurement, the warrant valuation will be adjusted to fair value, with the change in fair value recognized in the Company's statement of operations.

The Company's warrant liability for the Private Placement Warrants is based on a valuation model utilizing inputs from observable and unobservable markets with less volume and transaction frequency than active markets. The fair value of the Private Warrant liability classified within Level 3 of the fair value hierarchy.

The Company's warrant liability for the Public Warrants is based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. The fair value of the Public Warrant liability is classified within Level 1 of the fair value hierarchy.

Substantially all of the Company's trust assets on the condensed balance sheet consist of U. S. Money Market funds which are classified as cash equivalents. Fair values of these investments are determined by Level 1 inputs utilizing quoted prices (unadjusted) in active markets for identical assets.

[Table of Contents](#)

The following table presents information about the Company's assets and liabilities that were measured at fair value on a recurring basis as of June 30, 2021, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Assets:			
Investments held in Trust Account-Money Market Mutual Funds	172,511,739	—	—
Liabilities			
Warrant Liability—Public Warrants	\$ 5,347,500	\$ —	\$ —
Warrant Liability—Private Warrants	—	—	3,260,250
	<u>\$ 5,347,500</u>	<u>\$ —</u>	<u>\$ 3,260,250</u>

The Private Warrants were valued using a Black Scholes Option Pricing Model and were considered to be a Level 3 fair value measurements due to the use of unobservable inputs. The Black Scholes Option Pricing Model's primary unobservable input utilized in determining the fair value of the Private Warrants is the expected volatility of the common stock. The expected volatility as of the IPO date was derived from the post-merger announced publicly traded warrants for comparable SPAC companies as of the valuation date. The closing price of the Public Warrants was used to determine their fair value.

The key inputs used in the Black Scholes Option Pricing Model for the Private Warrants were as follows:

Input	June 30, 2021
Risk-free interest rate	1.0 %
Expected term (years)	5.36
Expected volatility	11.9 %
Stock Price	\$ 9.70
Exercise price	\$ 11.50
Dividend yield	— %

The following table sets forth a summary of the changes in the fair value of the Level 3 assets and liabilities measured at fair value for the three months ended June 30, 2021:

	Private Warrants
Fair value as of March 31, 2021	\$ 2,742,750
Change in fair value	517,500
Fair value as of June 30, 2021	<u>\$ 3,260,250</u>

There were no transfers between levels 1, 2 and 3 for the three months ended June 30, 2021.

NOTE 8 — COMMITMENTS

Registration Rights

The holders of the Founder Shares, Private Placement Warrants, shares of Class A common stock underlying the Private Placement Warrants, warrants issuable upon conversion of working capital loans (if any), and the shares of Class A common stock issuable upon exercise of or conversion of the foregoing are entitled to registration rights pursuant to certain registration rights agreements executed on January 29, 2021, requiring the Company to register such securities for resale (in the case of the initial shares, only after conversion to the Company's Class A common stock). Certain holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of the Company's initial Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"). The Company will bear the expenses incurred in connection with the filing of any such registration statements. Notwithstanding the foregoing, the Sponsor may not exercise its demand and "piggyback" registration rights after five (5) and (7) years, respectively, after the effective date of the registration statement filed in connection with the IPO and may not exercise its

demand rights on more than one occasion. In addition, if Hudson Bay acquires units in the IPO and becomes an affiliate (as defined in the Securities Act) of us following such offering, the Company has agreed to file a registration statement following such offering to register the resale of the units (including the shares of Class A common stock and warrants included in the units) purchased by Hudson Bay (or its nominee) in the IPO. Pursuant to the Company's registration rights agreement with its initial stockholders, the Company will be liable for certain liquidated damages for failure to honor such holders' registration rights described herein. There is no defined maximum allowed amount of potential liquidated damages in the registration rights agreement with the Company's initial stockholders. The Company's registration rights agreement with its initial stockholders expires upon the earlier of (i) the tenth anniversary of the date it was executed or (ii) the date as of which (A) all of the registrable securities (as defined therein) have been sold pursuant to a registration statement or (B) with respect to any holder, such holder ceasing to hold registrable securities.

Business Combination Marketing Agreement

The Company has engaged Maxim Group LLC, an affiliate of its Sponsor, as advisors in connection with its initial Business Combination to assist it in arranging meetings with its stockholders to discuss a potential Business Combination and the target business' attributes, introduce it to potential investors that may be interested in purchasing its securities, assist it in obtaining stockholder approval for its initial Business Combination and assist it with the preparation of press releases and public filings in connection with the initial Business Combination. The Company will pay Maxim Group LLC for such services upon the consummation of the initial Business Combination a cash fee in an amount equal to 3.5% of the gross proceeds of the IPO (exclusive of any applicable finders' fees which might become payable) or \$6,037,500. Pursuant to the terms of the Business Combination marketing agreement, no fee will be due if the Company does not complete an initial Business Combination.

NOTE 9 — SHAREHOLDERS' EQUITY

Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At June 30, 2021 and 2020, there were no shares of preferred stock issued or outstanding.

Class A common stock — The Company is authorized to issue 100,000,000 shares of Class A common stock with a par value of \$0.0001 per share. As of June 30, 2021 and 2020, there were 1,287,053 and 0 shares of Class A common stock issued or outstanding, excluding 15,962,947 and 0 shares subject to possible redemption.

Class B common stock — The Company is authorized to issue 10,000,000 shares of Class B common stock with a par value of \$0.0001 per share. As of June 30, 2021 and 2020, there were 4,312,500 shares of Class B common stock issued or outstanding.

The shares of Class B common stock will automatically convert into shares of the Company's Class A common stock at the time of an initial Business Combination or at any time prior thereto at the option of the holder on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts sold in our initial public offering and related to the closing of the initial Business Combination, including pursuant to a specified future issuance, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance, including a specified future issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of our initial public offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination, any private placement-equivalent warrants issued to the Sponsor or its affiliates upon conversion of loans made to us). If the Company enters into an initial Business Combination, it may (depending on the terms of such an initial Business Combination) be required to increase the number of shares of Class A common stock which the Company is authorized to issue at the same time as the Company's stockholders vote on the initial Business Combination to the extent the Company seeks stockholder approval in connection with the initial Business Combination. Holders of the Company's common stock are entitled to one vote for each share of common stock.

On February 24, 2020, the Company effectuated a recapitalization. Each outstanding share of the Company's Common Stock became 0.8425 shares of Class B common stock, resulting in an aggregate of 4,312,500 Founder Shares outstanding. On August 14, 2020, the Sponsor forfeited an aggregate of 2,833,333 shares of Class B Common Stock to the Company, and each of Nautilus and HB Strategies purchased from the Company 1,379,167 shares of Class B Common Stock. In January 2021, three initial stockholders of the Company forfeited an aggregate of 718,750 shares of Class B common stock at no cost, which the Company cancelled, resulting in an aggregate of 3,593,750 founder shares outstanding and held by its initial stockholders. On January 29, 2021, the Company effectuated a 1.2-for-1 forward stock split, resulting in an aggregate of 4,312,500 Class B shares held by its initial stockholders.

NOTE 10 — SUBSEQUENT EVENTS

The Company has evaluated events that have occurred after the balance sheet up to the date the condensed financial statements were issued. The Company did not identify any subsequent events, other than as noted below, that would have required adjustment to or disclosure in the condensed financial statements.

On August 5, 2021, Growth Capital Acquisition Corp., a Delaware corporation ("GCAC"), and GCAC Merger Sub Inc., a Delaware corporation and newly formed wholly-owned subsidiary of GCAC ("Merger Sub") entered into a Business Combination Agreement (the "Business Combination Agreement") with Cepton Technologies, Inc., a Delaware corporation ("Cepton"). Pursuant to the Business Combination Agreement, upon the consummation of the transactions contemplated by the Business Combination Agreement, Merger Sub will merge with and into Cepton (the "Merger") with Cepton continuing as the surviving corporation in the Merger and a wholly-owned subsidiary of GCAC.

Additionally, Koito Manufacturing Co., LTD., a current shareholder of Cepton, has committed to invest \$50 million in Cepton's business via the purchase of 5,000,000 Private Investment in Public Equity (PIPE) offering of shares of common stock of Growth Capital at a purchase price of \$10.00 per share, which is subject to the completion of, and will close simultaneously with, the business combination.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References in this report (the “Quarterly Report”) to the “Company,” “our,” “us” or “we” refer to Growth Capital Acquisition Corp. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Such statements include, but are not limited to, possible business combinations and the financing thereof, and related matters, as well as all other statements other than statements of historical fact included in this Form 10-Q. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission (“SEC”) filings.

Overview

We are a blank check company, incorporated under the laws of the State of Delaware on January 4, 2010 under the name PinstripesNYS, Inc., and changed our name to our current name on February 14, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”).

Although the we are not limited to a particular industry or sector for the purpose of consummating a Business Combination, we intends to focus on industries that complement our management team’s background, and to capitalize on the ability of our management team to identify and acquire a business or businesses consistent with the experience of our management team and affiliates of Maxim Group LLC (“Maxim”), the representative of the underwriters in the Initial Public Offering.

The issuance of additional shares of our stock in a Business Combination:

- may significantly dilute the equity interest of investors, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant indebtedness, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;

- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to raise capital or to complete our initial Business Combination will be successful.

Results of Operations

As of June 30, 2021, we had not commenced any operations. All activity from March 31, 2020 through June 30, 2021 relates to our formation, our prior un consummated initial public offering, and our Initial Public Offering. We will not generate any operating revenues until after the completion of our initial Business Combination, at the earliest. We will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Initial Public Offering. We have selected March 31 as our fiscal year end.

For the three months ended June 30, 2021, we had a net loss of \$1,525,461, which consisted of approximately \$66,638 in general and administrative costs, an unrealized loss on fair value changes of warrants of \$1,466,250, partially offset by interest income of \$7,427.

Liquidity and Capital Resources

As of June 30, 2021, we had cash of \$718,500.

Prior to the quarterly period covered by this Quarterly Report, on February 2, 2021, we consummated our IPO of 17,250,000 Units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), which includes the full exercise by the underwriter of its over-allotment option in the amount of 2,250,000 Units, at \$10.00 per Unit, generating gross proceeds of \$172,500,000.

Simultaneously with the closing of our IPO, we consummated the sale of 5,175,000 warrants (each, a “Private Placement Warrant” and, collectively, the “Private Placement Warrants”) in a private placement to our Sponsor, Growth Capital Sponsor LLC, Nautilus Carriers LLC, an affiliate of our Co-Chief Executive Officers, and HB Strategies LLC, an affiliate of Hudson Bay Capital Management LP generating gross proceeds of \$5,175,000.

Transaction costs amounted to \$4,294,613, consisting of \$3,450,000 of underwriting fees, and \$844,613 of other offering costs.

Following the closing of the IPO on February 2, 2021, an aggregate of \$172,500,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the IPO and the sale of the Private Placement Units was placed in a trust account (the “Trust Account”) located in the United States at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company acting as trustee, which were invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds registered under the

Investment Company Act of 1940, as amended. Unless and until we complete the initial Business Combination, we may pay our expenses only from the net proceeds of the IPO held outside the Trust Account, which as of February 2, 2021 were \$968,580.

Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay its taxes, the proceeds from the IPO may not be released from the Trust Account until the earliest of: (i) the completion of the initial Business Combination; (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend the Company's amended and restated certificate of incorporation to modify the substance or timing of the Company's obligation to redeem 100% of its public shares if it does not complete the initial Business Combination by August 2, 2022; or (iii) the redemption of all of the Company's public shares if the Company is unable to complete the initial Business Combination by August 2, 2022 (at which such time up to \$100,000 of interest shall be available to the Company to pay liquidation or dissolution expenses), subject to applicable law. The proceeds deposited in the Trust Account could become subject to the claims of the Company's creditors, if any, which could have priority over the claims of the Company's public stockholders.

Off-Balance Sheet Arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of June 30, 2021. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay the Sponsor a monthly fee of \$5,750 for office space, utilities and secretarial and administrative services. We began incurring these fees on January 29, 2021 and will continue to incur these fees monthly until the earlier of the completion of a Business Combination and the Company's liquidation.

Critical Accounting Policies

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the Securities and Exchange Commission (the "SEC"). Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's Annual report on Form 10-K, as filed with the SEC on July 19, 2021. The interim results for the three months ended June 30, 2021 are not necessarily indicative of the results to be expected for the year ending March 31, 2021 or for any future periods.

Recent accounting standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended June 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, our current chief executive officer and chief financial officer have concluded that, due solely to the Company's reclassification of the its Public Warrants and Private Placement Warrants following the issuance of the SEC Staff Statement on Accounting and Reporting Considerations for Warrants Issued by Special Purpose Acquisition Companies ("SPACs") on April 12, 2021, our disclosure controls and procedures were not effective as of June 30, 2021, and constituted a material weakness.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial and accounting officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the three months ended June 30, 2021, covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors.

There have been no material changes from the risk factors previously disclosed in the Company's most recent prospectus for the Initial Public Offering as filed with the SEC on February 2, 2021.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds from Registered Securities

Private Placement

On February 2, 2021, simultaneously with the closing of the Initial Public Offering, the Company completed the private sale of an aggregate of 5,175,000 Private Placement Warrants to the Company's Sponsor, Growth Capital Sponsor LLC (the "Sponsor"), Nautilus Carriers LLC ("Nautilus"), an affiliate of our Co-Chief Executive Officers, and HB Strategies LLC ("HB"), an affiliate of Hudson Bay Capital Management LP at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$5,175,000. The Private Placement Warrants are identical to the Warrants sold as part of the Units in the Initial Public Offering, except that the Sponsor, Nautilus and HB have agreed not to transfer, assign or sell any of the Private Placement Warrants (except to certain permitted transferees) until 30 days after the completion of the Company's initial business combination. The Private Placement Warrants are also not redeemable by the Company so long as they are held by the Sponsor, Nautilus or HB or their permitted transferees. In addition, for as long as the Private Placement Warrants are held by the Sponsor, Nautilus and HB, such warrants may not be exercised after five years from the effective date of the registration statement relating to the Initial Public Offering. No underwriting discounts or commissions were paid with respect to such sale. The issuance of the Private Placement Warrants was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act of 1933, as amended.

Use of Proceeds from the Initial Public Offering

Following the closing of the Initial Public Offering and the sale of Private Placement Warrants, \$172,500,000 was placed into the trust account. The proceeds in the trust account may be invested solely in U.S. government treasury bills with a maturity of 185 days or less or in money market funds registered under the Investment Company Act of 1940, as amended and compliant with Rule 2a-7 thereof.

The Company paid transaction costs of \$4,294,613, consisting of \$3,450,000 of underwriting fees, and \$844,613 of other offering costs. The remaining proceeds of approximately \$968,580 held outside the Trust Account will be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

There has been no material change in the planned use of the proceeds from the Initial Public Offering and Private Placement as is described in the Company's final prospectus related to the Initial Public Offering.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits.

CERTIFICATION
PURSUANT TO RULES 13a-14(a) AND 15d-14(a)
UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Prokopios (Akis) Tsirigakis, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Growth Capital Acquisition Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
