Item 8.01. Other Events.

On February 2, 2021, Growth Capital Acquisition Corp. (the “Company”) consummated its initial public offering (the “IPO”) of 17,250,000 units (the “Units”), including 2,250,000 units sold upon full exercise of the underwriters’ over-allotment. Each Unit consists of one share of Class A common stock of the Company, par value \$0.0001 per share (the “Class A Common Stock”), and one-half of one redeemable warrant of the Company (a “Warrant”), with each whole Warrant entitling the holder thereof to purchase one share of Class A Common Stock for \$11.50 per share. Only whole warrants are exercisable. The Units were sold at a price of \$10.00 per Unit, generating gross proceeds to the Company of \$172,500,000.

Simultaneously with the closing of the IPO, pursuant to a private placement warrants purchase agreement with Growth Capital Sponsor LLC, Nautilus Carries LLC and HB Strategies LLC, the Company completed the private sale of an aggregate of 5,175,000 warrants (the “Private Placement Warrants”) at a purchase price of \$1.00 per Private Placement Warrant, generating gross proceeds to the Company of \$5,175,000.

A total of \$172,500,000, comprised of \$168,337,625 of the proceeds from the IPO and \$4,162,375 of the proceeds of the sale of the Private Placement Warrants, was placed in a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., maintained by Continental Stock Transfer & Trust Company, acting as trustee.

An audited balance sheet as of February 2, 2021 reflecting receipt of the proceeds upon consummation of the IPO and the sale of the Private Placement Warrants has been issued by the Company and is included as Exhibit 99.1 to this Current Report on Form 8-K.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors of
Growth Capital Acquisition Corp.

Opinion on the Financial Statement

We have audited the accompanying balance sheet of Growth Capital Acquisition Corp. (the "Company") as of February 2, 2021 and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of February 2, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

Notes to Balance Sheet

NOTE 1 — DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Organization and General

Growth Capital Acquisition Corp. (the “Company”), a blank check company, was incorporated under the laws of the State of Delaware on January 4, 2010 under the name PinstripesNYS, Inc., and changed its name to its current name on February 14, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”).

The registration statements for the Company’s Initial Public Offering were declared effective on January 29, 2021. On February 2, 2021, the Company consummated the Initial Public Offering (as defined below) of 17,250,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), which includes the full exercise by the underwriter of its over-allotment option in the amount of 2,250,000 Units, at \$10.00 per Unit, generating gross proceeds of \$172,500,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 5,175,000 warrants (each, a “Private Placement Warrant” and, collectively, the “Private Placement Warrants”) in a private placement to the Company’s Sponsor, Growth Capital Sponsor LLC (the “Sponsor”), Nautilus Carriers LLC (“Nautilus”), an affiliate of our Co-Chief Executive Officers, and HB Strategies LLC (“HB Strategies”), an affiliate of Hudson Bay Capital Management LP (“Hudson Bay”) generating gross proceeds of \$5,175,000, which is described in Note 4.

Transaction costs amounted to \$4,294,613, consisting of \$3,450,000 of underwriting fees, and \$844,613 of other offering costs.

Although the Company is not limited to a particular industry or sector for the purpose of consummating a Business Combination, it intends to focus on industries that complement the Company’s management team’s background, and to capitalize on the ability of the Company’s management team to identify and acquire a business or businesses consistent with the experience of the Company’s management team and affiliates of Maxim Group LLC (“Maxim”), the representative of the underwriters in the Initial Public Offering.

As of February 2, 2021, the Company had not commenced any operations. All activity from January 4, 2010 (inception) through February 2, 2021 relates to the Company’s formation, its prior unconsummated initial public offering, and its initial public offering (the “Initial Public Offering”) described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Initial Public Offering. The Company has selected March 31 as its fiscal year end.

The Trust Account

The proceeds held in the Trust Account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds registered under the Investment Company Act of 1940, as amended and compliant with Rule 2a-7 thereof that maintain a stable net asset value of \$1.07. Unless and until the Company completes the initial Business Combination, it may pay its expenses only from the net proceeds of the Initial Public Offering held outside the Trust Account, which as of February 2, 2021 were \$968,580.

Except with respect to interest earned on the funds held in the Trust Account that may be released to the Company to pay its taxes, the proceeds from the Initial Public Offering may not be released from the Trust Account until the earliest of: (i) the completion of the initial Business Combination; (ii) the redemption of any public shares properly tendered in connection with a stockholder vote to amend the Company's amended and restated certificate of incorporation to modify the substance or timing of the Company's obligation to redeem 100% of its public shares if it does not complete the initial Business Combination by August 2, 2022; or (iii) the redemption of all of the Company's public shares if the Company is unable to complete the initial Business Combination by August 2, 2022 (at which such time up to \$100,000 of interest shall be available to the Company to pay liquidation or dissolution expenses), subject to applicable law. The proceeds deposited in the Trust Account could become subject to the claims of the Company's creditors, if any, which could have priority over the claims of the Company's public stockholders.

Initial Business Combination

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering, although substantially all of the net proceeds of the Initial Public Offering and the Private Placement are intended to be generally applied toward consummating an initial Business Combination. The initial Business Combination must occur with one or more businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (excluding the amount of the Business Combination Marketing Fee). There is no assurance that the Company will be able to successfully effect an initial Business Combination.

The Company, after signing a definitive agreement for an initial Business Combination, will provide its public stockholders' with the opportunity to redeem all or a portion of their shares upon the completion of the initial Business Combination, either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. However, in no event will the Company redeem its public shares in an amount that would cause its net tangible assets, after payment of deferred underwriting commissions, to be less than \$5,000,001. In such case, the Company would not proceed with the redemption of its public shares and the related initial Business Combination, and instead may search for an alternate initial Business Combination.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with an initial Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest, but less taxes payable. As a result, such shares of Class A common stock will be recorded at their redemption amount and classified as temporary equity, in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, "Distinguishing Liabilities from Equity."

The Company will have until August 2, 2022 to complete a Business Combination. If the Company is unable to complete the initial Business Combination by August 2, 2022, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest, but less taxes payable (less up to \$100,000 of interest to pay liquidation or dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

Each of our sponsor and Nautilus has agreed that it will be severally liable to us, on a pro rata basis based on the number of founder shares owned by them, if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have entered into a written letter of intent, confidentiality or similar agreement or business combination agreement, reduce the amount of funds in the trust account to below the lesser of (i) \$10.00 per public share and (ii) the actual amount per public share held in the trust account as of the date of the liquidation of the trust account, if less than \$10.00 per share due to reductions in the value of the trust assets, less interest released to pay taxes, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to the monies held in the trust account (whether or not such waiver is enforceable) nor will it apply to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. However, we have not asked our sponsor or Nautilus to reserve for such indemnification obligations, nor have we independently verified whether our sponsor or Nautilus have sufficient funds to satisfy such indemnity obligations and believe that the only assets of our sponsor and Nautilus are securities of our company. Therefore, we cannot assure you that our sponsor or Nautilus would be able to satisfy those obligations. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

The Sponsor, the Company's officers and directors and certain initial stockholders have entered into a letter agreement with the Company, pursuant to which they agreed to waive their rights to liquidating distributions from the Trust Account with respect to any Founder Shares (as defined below) held by them if the Company fails to complete the initial Business Combination by August 2, 2022. However, if the Sponsor or any of the Company's directors or officers acquires shares of Class A common stock in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the initial Business Combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the Company after an initial Business Combination, the Company's remaining stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our sponsor, officers, directors, and Nautilus have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares held by them and any public shares they may acquire during or after this offering in connection with the completion of our initial business combination or otherwise. HB Strategies has agreed to the foregoing terms except that it will not waive redemption rights with respect to its public shares.

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statement of the Company is presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC").

Emerging Growth Company

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company's financial statement with another public company, which is neither an emerging growth company nor an emerging growth company, and which has opted out of using the extended transition period, difficult or impossible because of the potential differences in accounting standards used.

Cash and cash equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of February 2, 2021.

Cash held in Trust Account

At February 2, 2021, the assets held in the Trust Account were held in cash.

Common stock subject to possible redemption

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in ASC Topic 480 “Distinguishing Liabilities from Equity”. Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. The Company’s common stock features certain redemption rights that are considered to be outside of the Company’s control and subject to the occurrence of uncertain future events. Accordingly, common stock subject to possible redemption is presented as temporary equity, outside of the stockholders’ equity section of the Company’s balance sheet.

Use of Estimates

The preparation of a financial statement in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

Financial Instruments

The fair value of the Company’s assets and liabilities, which qualify as financial instruments under the FASB ASC 820, “Fair Value Measurement,” approximates the carrying amounts represented in the balance sheet, primarily due to their short term nature.

Income Taxes

The Company complies with the accounting and reporting requirements of ASC Topic 740 “Income Taxes,” which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of February 2, 2021, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company may be subject to potential examination by federal, state and city taxing authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal, state and city tax laws. The Company’s management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of this financial statement. The financial statement does not include any adjustments that might result from the outcome of this uncertainty.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

NOTE 3 — PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 17,250,000 at an offering price of \$10.00 per Unit, which included 2,250,000 units sold upon the full exercise by the underwriter of its over-allotment option, at \$10.00 per Unit, generating gross proceeds of \$172,500,000.

Each Unit consists of one share of the Company's Class A common stock, \$0.0001 par value, and one-half of one redeemable warrant, with each whole warrant exercisable for one share of Class A common stock (each, a "Warrant" and, collectively, the "Warrants" and, with respect to the warrants sold in the Private Placement, the "Private Placement Warrants"). One Warrant entitles the holder thereof to purchase one whole share of Class A common stock at a price of \$11.50 per share.

NOTE 4 — PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 5,175,000 warrants (each, a "Private Placement Warrant" and, collectively, the "Private Placement Warrants") in a private placement to Growth Capital Sponsor LLC (the "Sponsor"), Nautilus Carriers LLC and HB Strategies LLC generating gross proceeds of \$5,175,000.

A portion of the purchase price of the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Initial Business Combination is not completed by August 2, 2022, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

NOTE 5 — RELATED PARTY TRANSACTIONS

Founder Shares

On April 30, 2010, the Company sold 5,000,000 shares of the Company's common stock, par value \$0.0001 per share, to the Sponsor, at a purchase price of \$25,000. On July 1, 2012, the Company issued 376,344 shares of the Company's common stock to a third party as consideration for services performed. On February 24, 2020, the third party forfeited 257,649 shares of the Company's common stock.

On February 24, 2020, the Company effectuated a recapitalization. Each outstanding share of the Company's Common Stock became 0.8425 shares of Class B common stock, resulting in an aggregate of 4,312,500 Founder Shares outstanding and held by the Sponsor (up to 562,500 of which were subject to forfeiture if the underwriter's over-allotment option was not exercised in full). All share and per-share amounts for periods and dates prior to December 2019 have been retroactively restated to reflect this split. Additionally, 75,000 shares of Class B Common Stock will be issued to the Company's three independent directors prior to the closing of this offering.

On August 14, 2020, the Sponsor forfeited an aggregate of 2,833,333 shares of Class B Common Stock to the Company for no consideration, and each of Nautilus and HB Strategies purchased from the Company 1,379,167 shares of Class B Common Stock for a purchase price of \$2,043 (or an aggregate purchase price of \$4,086).

On January 7, 2021, three initial stockholders of the Company forfeited an aggregate of 718,750 shares of Class B Common Stock at no cost, which the Company cancelled, resulting in an aggregate of 3,593,750 shares of Class B Common Stock outstanding and held by the Company's initial stockholders.

On January 29, 2021, we effectuated a 1.2-for-1 forward stock split, resulting in an aggregate of 4,312,500 shares held by our initial stockholders.

Holders of Founder Shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment, at any time.

The Company's initial stockholders, officers and directors have agreed, not to transfer, assign or sell any Founder Shares held by them until the earlier to occur of: (i) one year after the completion of the initial Business Combination, (ii) the last sale price of Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 60 days after the initial Business Combination, or (iii) the date following the completion of the initial Business Combination on which the Company completes a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of the public stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Administrative Fees

Commencing on January 29, 2021, the Company agreed to pay an affiliate of the Sponsor a total of \$5,750 per month for office space, utilities and secretarial and administrative support. Upon completion of the initial Business Combination or the Company's liquidation, the Company will cease paying these monthly fees.

Notes Payable — Related Party

The Company issued promissory notes to certain initial stockholders of the Company, which allowed the Company to borrow up to \$300,000 without interest to be used for a portion of the expenses of the Initial Public Offering. All amounts due under the promissory notes were payable on the earlier of: (i) March 31, 2021 or (ii) the date on which the Company consummated an initial public offering of its securities. As of the date of the Initial Public Offering, there were \$135,325 outstanding under the promissory notes. The promissory notes were repaid from the proceeds of the Initial Public Offering.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor and certain other initial stockholders of the Company may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants.

Business Combination Marketing Agreement

The Company has engaged Maxim Group LLC, an affiliate of its Sponsor, as advisors in connection with its initial Business Combination to assist it in arranging meetings with its stockholders to discuss a potential business combination and the target business' attributes, introduce it to potential investors that may be interested in purchasing its securities, assist it in obtaining stockholder approval for its initial Business Combination and assist it with the preparation of press releases and public filings in connection with the initial Business Combination. The Company will pay Maxim Group LLC for such services upon the consummation of the initial Business Combination a cash fee in an amount equal to 3.5% of the gross proceeds of the Initial Public Offering (exclusive of any applicable finders' fees which might become payable) or \$6,037,500. Pursuant to the terms of the business combination marketing agreement, no fee will be due if the Company does not complete an initial Business Combination.

NOTE 6 — COMMITMENTS

Registration Rights

The holders of the Founder Shares, Private Placement Warrants, shares of Class A common stock underlying the Private Placement Warrants, warrants issuable upon conversion of working capital loans (if any), and the shares of Class A common stock issuable upon exercise of or conversion of the foregoing are entitled to registration rights pursuant to certain registration rights agreements executed on January 29, 2021, requiring the Company to register such securities for resale (in the case of the initial shares, only after conversion to the Company's Class A common stock). Certain holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of the Company's initial Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act of 1933, as amended (the "Securities Act"). The Company will bear the expenses incurred in connection with the filing of any such registration statements. Notwithstanding the foregoing, the Sponsor may not exercise its demand and "piggyback" registration rights after five (5) and (7) years, respectively, after the effective date of the registration statement filed in connection with the Initial Public Offering and may not exercise its demand rights on more than one occasion. In addition, if Hudson Bay acquires units in the Initial Public Offering and becomes an affiliate (as defined in the Securities Act) of us following such offering, the Company has agreed to file a registration statement following such offering to register the resale of the units (including the shares of Class A common stock and warrants included in the units) purchased by Hudson Bay (or its nominee) in the Initial Public Offering. Pursuant to the Company's registration rights agreement with its initial stockholders, the Company will be liable for certain liquidated damages for failure to honor such holders' registration rights described herein. There is no defined maximum allowed amount of potential liquidated damages in the registration rights agreement with the Company's initial stockholders. The Company's registration rights agreement with its initial stockholders expires upon the earlier of (i) the tenth anniversary of the date it was executed or (ii) the date as of which (A) all of the registrable securities (as defined therein) have been sold pursuant to a registration statement or (B) with respect to any holder, such holder ceasing to hold registrable securities.

NOTE 7 — STOCKHOLDER'S EQUITY

Common Stock

The authorized common stock of the Company includes up to 100,000,000 shares of Class A common stock and 10,000,000 shares of Class B common stock. The shares of Class B common stock will automatically convert into shares of the Company's Class A common stock at the time of an initial Business Combination or at any time prior thereto at the option of the holder on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts sold in this offering and related to the closing of the initial Business Combination, including pursuant to a specified future issuance, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance, including a specified future issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of this offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial Business Combination, any private placement-equivalent warrants issued to the Sponsor or its affiliates upon conversion of loans made to us). If the Company enters into an initial Business Combination, it may (depending on the terms of such an initial Business Combination) be required to increase the number of shares of Class A common stock which the Company is authorized to issue at the same time as the Company's stockholders vote on the initial Business Combination to the extent the Company seeks stockholder approval in connection with the initial Business Combination. Holders of the Company's common stock are entitled to one vote for each share of common stock. On February 24, 2020, the Company effectuated a recapitalization. Each outstanding share of the Company's Common Stock became 0.8425 shares of Class B common stock, resulting in an aggregate of 4,312,500 Founder Shares outstanding. On August 14, 2020, the Sponsor forfeited an aggregate of 2,833,333 shares of Class B Common Stock to the Company, and each of Nautilus and HB Strategies purchased from the Company 1,379,167 shares of Class B Common Stock. In January 2021, three initial stockholders of the Company forfeited an aggregate of 718,750 shares of Class B common stock at no cost, which we cancelled, resulting in an aggregate of 3,593,750 founder shares outstanding and held by our initial stockholders. On January 29, 2021, we effectuated a 1.2-for-1 forward stock split, resulting in an aggregate of 4,312,500 Class B shares held by our initial stockholders. As of February 2, 2021, there were 424,614 shares of Class A common stock issued or outstanding, excluding 16,825,386 shares subject to possible redemption.

Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At February 2, 2021, there were no shares of preferred stock issued or outstanding.

Warrants

Warrants may only be exercised for a whole number of shares. No fractional Warrants will be issued upon separation of the Units and only whole Warrants will trade. The Warrants will become exercisable on the later of (a) 30 days after the completion of the initial Business Combination or (b) 12 months from the closing of the Initial Public Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the shares of Class A common stock issuable upon exercise of the Warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company will agree that as soon as practicable, but in no event later than 15 business days, after the closing of the initial Business Combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the Warrants, to cause such registration statement to become effective within 60 business days after the closing of the initial Business Combination and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If the shares issuable upon exercise of the warrants are not registered under the Securities Act by the 60th business day after the closing of the initial Business Combination, the Company will be required to permit holders to exercise their warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if the Company's Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company elects, the Company will not be required to file or maintain in effect a registration statement, but the Company will use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Private Placement Warrants are identical to the Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the shares of Class A common stock issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of the initial Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be non-redeemable so long as they are held by the initial purchasers or such purchasers' permitted transferees. If the Private Placement Warrants are held by someone other than the initial shareholders or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Warrants.

The Company may call the Warrants for redemption (except with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption (the "30-day redemption period"); and
- if, and only if, the last sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If the Company calls the Warrants for redemption, management will have the option to require all holders that wish to exercise the Warrants to do so on a "cashless basis," as described in the warrant agreement.

NOTE 8 — SUBSEQUENT EVENTS

The Company has evaluated events that have occurred after the balance sheet up to the date the financial statement was issued. Other than as described below, the Company did not identify any subsequent events that would have required adjustment to or disclosure in the financial statements.
